Why Have a Club for Playing Games?

In this day and age of electronic and computerized games, children are not experiencing the socialization of playing games face to face. By playing board games or card games, students can learn how to read body language, how to be good winners, and how to handle the disappointment of losing in a game. At the last club meeting, 143 students were in attendance.

No computer games allowed!

How can you help?
Please consider donating new board games, card games, or used games that contain all the pieces needed to play. We also accept monetary donations to help replace damaged or incomplete games.
